Permis de conduire B, B1 et AM

Projects

2018	**Corewar**, *C*, asm (assembler). Creation of virtual machine/emulator which can run binary code
2017	**Lem-in**, *C*, Parsing. Seeking the shortest routes in an "anthill"
2017	**Push-swap**, *C*. Searching, selecting then coding a sorting algorithm (with limitations)
2016– ∞	**Libft**, *C*. My own library (set of little codes to use to realize futur projects)
2014–2015	**Map generator randomized**, *C*. Generate an image BMP of a continent
2013	**Pac-Man**, *Maple*, Artificial Intelligence. Create I.A. and test their current performances

Formation

2016–2019	**Ecole42 Born2code**, *Computer school self-learning*, *Reorientation*, Ecole 42 Paris. Concrete implementation on various programming projects and coding
2014–2016	**First year of an engineering programme**, *GIS (Génie Informatique et Statistique)*, *Bac+3 Validated*, Polytech Lille. Theoretical knowledge of databases, and basic SQL
2011–2014	**CPGE (Preparatory Classes for the Prestigious Universities)**, *MP (Mathematical and Physica)*, *Bac+2*, Classe préparatoire Clémenceau de Reims. Developing a global view of (real) Mathematical and their practical applications

Professional experience

May – June 2018	**Developer C/C++**, Minva, Paris, High frequency trading and Crypto currency. Parsing, optimisation, strategy simulation, unit testing, ...

Skills

Programming (and software)

C/C++	★★★★☆	Latex	★★★★☆
Git/Github	★★★★☆	html, css	★★☆☆☆
Shell	★★★☆☆	SQL	★☆☆☆☆

Linguistiques Anglais

Listening	B1 (TOEIC 2016 : 375/495)	Reading	B1 (TOEIC 2016 : 310/495)

Main interests

Video games	I like strategy game and RPG : *Final Fantasy VI, Fire Emblem 7, Xenoblade*, ...
Reading	Mostly *epic fantasy* : *Eragon, Tara Duncan, La roue du temps, ...*
Game tables	roleplaying game on paper and various board games
